Our 24/7 Mission

Did you know?

- In 2012, our volunteer pilots flew over 50% more missions than in previous years.
- We are geographically spread across a 6-state Southeast region and fly into hundreds of airports.
- Our office coordinates missions 24 hours per day, 365 days per year.
- We coordinate and re-coordinate (due to passenger health, weather, aircraft maintenance, etc.) 3,000 missions per year. Passengers can fly as many times as needed.

Director of Missions
Kathy Grange

- At our headquarters, we qualify each passenger for medical need, financial need, ability to fly in our aircraft and more than 20 other criteria.
- Our office has to maintain records for 650 pilots including, but not limited to:

- FAA flight currency
- Waiver of liability for every mission
- Updated aircraft insurance information

- We are required to keep current with the latest FAA, non-profit, healthcare guidelines and regulations.

Our 24/7 Mission

- We continually do outreach on a regional basis to doctors, nurses, case managers, social workers and individuals to make sure no one gets left on the ground.

- To supplement our budget, we run events and other fundraising efforts all year long in many cities across our region.
- We have over 950 volunteers that are coordinated through our headquarters.
- Our office reports and collects data to provide foundations and other donors of our progress and community benefit.

We estimate an additional 1,000 missions per year could be flown if more people knew about our service.

“All of this coordination effort costs money. We need your help to keep up with the demand. Please donate today!”
